

WHAT WE DO

with almost 30
years of experience
we can do just about
anything

COMPREHENSIVE FULL SERVICE LAND SERVICES....

Leasing, Courthouse-State-Federal Records Research, Title Ownership, Surface Access and Damages, Right-of-Way Acquisition, Permitting, Due Diligence, Prospect Acquisition and Engineering Support.

We are a small shop with a detailed focus on filling your specific land department needs when it comes to drilling and acquisition services and support.

James C Karo Associates prides itself on its professional and ethical land related activities for various clients throughout the Rocky Mountain West and Midwest.

If you are looking for talented and highly experienced professionals to help with your land needs, you owe it to yourself to talk with us. We have over 30 years of dedicated service in Leasing, Permitting, Title Examination and Oil and Gas Operations.

We will support your drilling program from any avenue... in-house as your contract landman; in the field with leasing and acquisition; with production and transportation

through right-of-way and surface use negotiation and settlement; or in the Oil and Gas Commission with compliance and permit related activities.

In this dawning of a new alternative age, we also have experience with Wind Farm Leasing and Facility Layout. We are blazing the new trail in Carbon Sequestration with a focus on reservoir acquisition and landowner negotiation as well as CO2 transportation.

When you want it done right, the first time, James C Karo Associates is the answer. You will find our rates competitive, our connections far reaching, and our "can do" attitude infectious.
